Sagar(M.P)

### EDUCATION

#### Bachelor's Degree in Computer Science with Artificial Intelligence & Machine Learning

Babulal Tarabai Institute of Research & Technology

2022-Present(Sagar,(M.P))

#### Higher Secondary

Abhyuday Public School

Sagar(M.P)

- Physics
- Chemistry
- Mathematics

July2020-April 2022

### SKILLS

- PYTHON
- HTML
- CSS
- JAVASCRIPT
- MYSQL
- FLASK
- COMMUNICATION

### LANGUAGE

- English
- Hindi

### PROFILE

B.Tech. Computer Science student passionate about AI&ML. Bringing skills in Python, html, css, javascript, MySQL, flask. Driven to solve real-world problems using technology, I seek a Software Internship. Eager to learn from the best and contribute to impactful solutions. Ready to collaborate and make a difference.

### PROJECTS

#### Smart Attendance System By Face Recognition(GUI)

- The Smart Attendance System Using Face Recognition is a software application that automates attendance-taking using facial recognition technology. It eliminates the need for manual attendance-taking, which is time-consuming and prone to errors.

#### Staff Connect (Website)

Businesses like yours have trusted our staffing management solution for over a decade. StaffConnect has all you need – with all the tools to help you save time and increase the productivity of your business.

#### Real Time Face Lock

In the world of Python programming, there's a fascinating realm of possibilities waiting to be explored. Today, we'll delve into one such exciting domain—real-time recognition-based system lock/unlock. Imagine a system that identifies and grants access only to authorized individuals in real-time, enhancing security and convenience.
